## PROTECT YOUR INVESTMENT

The new 6 Series and 3 Series Thermal Radar™ arms Auto Dealership, Auto Storage and Auto Auction Facilities with a best-in-class solution for wide area perimeter intrusion detection and targeted surveillance from a single rotating thermal sensor. Thermal Radar™ uses edge-based analytics that provides your property and investment with unprecedented actionable intelligence and critical information so that any intrusion of the auto facility can be detected and reported to security personnel.

The newest innovation is the award winning Thermal Radar Hydra™; it utilizes a targeted surveillance platform with Thermal Radar's™ 360° intrusion detection capabilities combined with the edge-based "slew-to-cue" action of a high resolution IR illuminated PTZ for targeted confirmation and forensics.

Thermal Radar™ provides continuous and persistent 360° scanning for thermal intrusion detection with sophisticated analytics which classifies detections as a human or a vehicle and allows for user determined AOI's. Protect your Auto Dealership, Auto Auction or Auto storage facility with the best-in-class Thermal Radar Hydra™.
